

The HD mobile is a great versatile tipping system most commonly utilised when tipping waste bins or containers into open top skips. However, with Keljay's bespoke manufacturing capabilities our mobile tipping systems can be tailored to your requirements to enable you to tip with containers and to heights of your choice.

Another great benefit of the HD tipping system is that it can be moved to different waste skips or tipping locations meaning that the HD Mobile tipper can do the job of multiple fixed systems. This tipping system has great mobility due to its high grade wheel system which enables the HD tipper to be effortlessly manoeuvred from location to location.
